BENSON'S WATCHES AND CLOCKS.

Watch and Clock Maker, by Special Appointment, to His Royal Highness The Prince of Wales.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English workmanship, a watch as large as a crown piece, and of the size of the ordinary pocket watch, but which has the whole of the movements necessary for a Chronometer or Astronomical Clock, is worthy of notice. Some of these watches are made for the Emperor of Russia, and are of the most elaborate description. The English watch is also remarkable for the compactness with which the movements are packed together, and for the ingenious contrivances by which the number of wheels is reduced to the smallest possible number."—Illustrated London News, March 21, 1863.

The River Plate Magazine.

The River Plate Magazine, first number, is at last out, and we are happy to say is well received.

The magazine contains 64 pages, is well printed and very nicely got up. The first chapter is a biographical sketch of our Admiral Brown, and is really interesting, containing many anecdotes respecting the gallant veteran Admiral which were hitherto unknown. Mr. Williams, the talented editor, could not have selected a more popular subject for the first chapter of his magazine than the life of Brown. Everyone who cares to know anything about the country will read with pleasure the life of this distinguished Irishman. We believe that he was the only foreigner who ever filled the chair of Governor of this country. We look forward with pleasure to the continua tion of the chapter in the February number.

The next chapter is a translation from Dominguez's history of the Argentine Confederation. As we are all acquainted with this work in the text, we have noth ng particular to remark, save that its translation into English we regard as extremely useful. Had the gifted historian rendered his talents to the paths of literature, we would feel less hesitation at praising the depth and research of his history in question, but unfortunately we find ourselves deprived of this pleasure owing to the present position which Mr. Dominguez occupies in our political world. Strange indeed does it seem that a man who is so intimately acquainted with the history of this country would not prefer the historians office to any place or office under a South American Government. Do mingues as an historian holds a foremost rank in the River Plate, but as yet offi cial financier, minister, or politician, we regret we cannot say so much.

The third chapter, "A Commercial Report of the State of the Oriental Republic, to the end of 1862," by our esteemed and talented Consul Hutchinson, of Paysandu, abounds in valuable statistical information. We gather from it that the exports from England to the River Plate, in 1862, were more than double those of the year 1858; and that exports from this country to England, in the year 1859, were more than double those of the year 1858; and that the exports from this country to England, in the year 1859, were more than double those of the year 1858; and that exports from this country to England, in the year 1859, were more than double those of the year 1858; and that exports from this country to England, in the year 1859, were more than double those of the year 1858; and that

was advertised to be sold by auction on the 7th and 8th, at the Barren of D. E. Antonini.

Also on the 13th, the cargo of the Norwegian barque Concurrenten, at the same barren.

Two chasques had arrived in Montevideo on New Year's Day, but nothing was known as to their import.

Business is very brisk at present, and few oven think of Flores or his revolution.

It is generally believed that Flores will find Paysandu much hotter than he expects.

Great hopes are entertained by foreigners that Mr. Thornton will interfere with President Aitre, and put down the revolution.

THE LIENZO QUESTION.

In Buenos Ayres, this the 6th day of January, 1864, we the undersigned Consignees, having met for the purpose of taking into consideration the necessity of putting an end to the abuse now in practice in the produce markets, "the tare of the lienzo," and convinced of the convenience of a just and general rule which may avoid the losses that are occasioned to our constituents, have agreed, in the most formal manner, from this day forward, not to effect any transaction in wool, or such produce (or may require to be weighed in lienzos) without previously agreeing to the exact tare; and, that this act may have more force, we have agreed to give it all publicity and duly legalise it, declaring that whoever shall break the compromise shall pay the fine of five thousand dollars currency, which will be destined to the benefit of the Hospital.

LATEST FROM ENTRE RIOS.

Urquiza has returned to San José.

The soldiers are all discharged.

Peron it appears after having a conference with Urquiza, who received him well, started off in his own boat *al-ne* for Paraná, to present himself to the Criminal Judge.

Everything is quiet in Entre Rios.

It is rumoured that Urquiza got up the whole affair, to show his power and prove his utility in Entre Rios. It is said that Urquiza will be re-elected, although contrary to the Constitution, and that then he will call the Camaras together, and have his election ratified.

Placido Lopez is said to be in Concordia. Telmo Lopez has passed over to Salto, Banda Oriental, in order to fight Flores at Paysandu, where it is expected there will be a great attack. Waldino is along with Lopez. Laudo is also at Paysandu, and Nadal has removed his boat to the Paysandu wharf. The Indians under Criato, are also at Paysandu. The Oriental Govt has about 1, 00 men in the town to defend it, we hope that at last we shall hear of something decisive.

The Argentine Central Railway.

TO THE EDITORS OF THE 'STANDARD.'

Gentlemen,

On perusing the columns of your valuable sheet, my eyes this day chanced to fall upon the concluding paragraph of your article, headed 'The Argentine Central Railway,' in which you have been pleased to state that you "feel convinced that the 'crudos' are the worst enemies of Mr. Wheelwright and the Argentine Central Railway Company."

Without entering into the appreciation of the motives which guide the two factions that now distract this city and province, I must emphatically deny your assertion, and in this I am supported by yourselves, for in another part of the article in question, there you state that "we run over the list of names belonging to the opposition club, and we feel confident that there but 'one' who would wish to see the country plunged into civil war." This, gentlemen, is the real fact, and nothing but the truth, for amongst the 'crudos,' as they are called, are to be found subscribers to a heavy amount in the Central Railway, and who have been ever foremost in patronising every project that have been presented to the Chamber, and have always been looked upon as visionaries, by many of the men of 'buen sentido,' and who are the nucleus of the 'cocido' party; in fact, one of the chief of the 'crudo' party has been the most persevering promoter of the project in this country.

And now that I have got this far, may I be permitted (as you have doubted that there is such a character as an intelligent 'crudo'), in answer to an invitation contained in one of your late issues, "what injury the federalisation of this city has done the business or city of Buenos Ayres," to answer—' None.' On the contrary, it has been a benefit. But this is not the question.

If you had taken the trouble to read the programmes of the 'Libertad' and 'Pueblo' Clubs, you will find that both parties sustain the same ideas, and these are, the maintenance of our present political situation. Of course, both parties are unanimously unanimous of having an '*emero penedo*' in the matter; but we have no right to interpret people's intentions.

The province of Buenos Ayres, it is well-known, is the richest and most populated of the Republic, and still is not so represented in the Chambers. Buenos Ayres is the only province that can counter-balance the President's power. Now, if we erase from the Argentine map this province, and make it nothing less than a military district, subject to the control of the Government, what becomes of our liberties of the citizens, the day that unfortunately a tyrant President should wish to dominate?

The country, with few exceptions, desire the residence of the National Government in this city, but, at the same time, they will not allow the whole province to be federalised, which is the 'cocido.' This is the difference on paper; but the truth is, that both parties desire peace, and nothing but this will satisfy them.

As to the relative respectability of the parties, it's all humbug; they are six of one to half-a-dozen of the other, and this is well known. Our present worthy President, General Mitre, was raised to the proud position he now holds through the efforts of those who are now termed disturbers of the public peace, assassins, &c., whilst the "Latter-day Saints," or Federals, the revolters of the 8th of November, the supporters of Doctor Derqui, and a few deluded young men, anxious to gain popularity at any price.

This, gentlemen, are the facts of the matter. All the writing and shouting is nothing but 'bosh,' designed to misguide the public.

When the lists of candidates are published, you will find the truth of what I have stated; and if either the Crudos triumph in the elections, you will then see that they are the true friends of the advancement of the country, and especially of the Argentine Central Railway, one of the great projects for maintaining peace in this distracted nation.

I owning to your known impartiality to publish these hurried lines,

I am, sirs,

A CRUDO,
And a Subscriber to the
A. C. Railway.

Belgrano, Jan. 4, 1864.

LOCAL EVENTS.

Belgrano.—We are requested to call the attention of our young gentlemen friends to a meeting which is to be held to-night at the Belgrano Hotel, the purpose of appointing a committee for the collection of funds, to open a club in this pretty little town, now the resort of a considerable part of our *haut ton*.

Moron.—The distribution of prizes to the pupils of the Public Schools will take place to day. There will be a ball in the evening, and a social tea will return with the merry-makers as soon as the day's amusements are over.

La Costa.—All the towns of this district are crowded with visitors: not a bed is to be found for love or money, and pleasure seekers will do well not to miss the last train, as they will have to pass rather an unpleasant evening, as the tertulias have not yet commenced.

La Convalecencia.—We are pleased to say that we have heard very good reports of the good effects which this institution is kept. Tourists would do well to pay it a visit, and we are sure they will meet with every attention from Señor Gallegos, who is in charge.

Club Libertad.—This club met on Sunday, but we are assured that not more than 30 members were present. It appears, therefore, that the warning passed to the Government officials has had some effect upon the timid ones.

Club del Pueblo meets to-day in the Victoria Theatre. The owners of Colon refused the use of the building, on what plea we do not know.

La Trauiata will be given again to night at the Colon Theatre, and we would advise all our musical friends to attend, if they wish to see the opera given in first rate style.

Northern Railway.—We have heard general satisfaction expressed as regards the new management of the line. The inconveniences and abuses has now made room for a vote of thanks to the directors, in which we heartily concur. The rush is now avoided at Belgrano: tickets are not asked for in the carriages, fares can be paid for at any time, and in fact everything is in first rate order, as was the system on board the model river steamer, whose worthy commander may now be seen giving his orders on the various platforms on the route.

PAYSANDU FOR EVER.

An explosive Oriental has favoured us with the following thundering proclamation. We suppose that the Spanish papers could not find room for this appeal to arms, so it was sent to us:—

PROCLAMA.

Comandancia Militar }

Defensa de Paysandú,
Enero 1° de 1864.

Mis valientes compañeros!

La horda de bárbaros que ocupaba al traidor Venancio Flores era á vuestra vista: ellos intentan traer un ataque esta poblacion: vosotros habeis jurado vencer ó morir, y os juramento lo hacen hoche en dias de la Patria y en presencia de Dios.

Soldados!

Tal vez la suerte de la República, sensitiva al heroismo, nos ha coronado; porque el traidor Flores impotente, é incapaz de resistir al Ejército Nacional y de vosotros viene á efectuar un último ataque, y es aquí en donde debe llevar él y los suyos un tremendo escarmiento

Vivan las instituciones del Estado!
Viva el Gobierno Constitucional!

SAVINGS BANK.
BANK MAUA & C°.
—No. 103 calle de Cangallo.—
BUENOS-AYRES.
The immense advantages of Accounts Current are now so generally felt, and appreciated in the two great emporiums of the River Plate—Montevideo & Buenos Ayres—that there are very few Merchants who fail to keep one at the Bank in which they place the most confidence
The Bank of Mauá & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depositary for their savings.
The sums deposited in that most important institution are daily increasing and already reach a very large amount.
These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artizans, working-men & servants of all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of weel, sickness or old age, instead of spending them in the immoral gambling, in lotteries and other trivolities
The Bank of Mauá and Co. of this city following the example of their

ENGLISH GRAMMAR SCHOOL,
CALLE LARGA DE BARRACAS,
Door—Mr. Pongerard, of the London University College.
This Establishment, which from its foundation has been patronised by the principal British families of Buenos Ayres, is an exact reproduction of an E glish School, where a sound commercial education combined with the acquisition of the French and Spanish languages is imparted to the pupils, and based upon the same system as the first class European institutions of the kind.
An ever-watchful and constant supervision, and a strict maintenance of order and propriety, are a sufficient guarantee that the moral and behaviour of the pupils are carefully attended to.
The different branches taught in the English Grammar School comprise the English, French and Spanish languages, History, Geography, Arithmetic, and Book-keeping, Mental Arithmetic parts, Writing, and Religious Instruction.
Extra branches, such as Latin, Mathematics, Drawing, Are also taught by special masters.
The situation of the English Grammar School, in one of the most delightful Quintas of the Calle Larga de Barracas, at the very gates of the city, is one of the most wholesome and pleasurequo of the environs of Buenos Ayres.
